

27 September 1956

MEMORANDUM FOR THE RECORD

FROM: Chief, Budget Division

SUBJECT: Project 25X1A2G

25X1A9A 1. In a meeting held on 7 September 1956 with Messrs. 25X1A9A
and 25X1A2G of the Office of Communications, the problem of main-
taining control of the amounts released from the Bureau of the Budget
for the financing of Project 25X1A9A was discussed.

25X1A9A 2. Mr. 25X1A2G stated that it would be impractical to maintain
the segregation of the 25X1A2G operations independently in the official
accounts of the Agency since the 25X1A2G activities would be carried
out within the regular framework of the Office of Communications.

25X1A2G 3. After the discussion it was agreed that the Office of
Communications would make an analysis of actual obligations and would
submit a special report to the undersigned on a monthly basis, giving
the actual costs of the 25X1A2G operation. It was agreed that such
a report could be used to demonstrate compliance with the condition
on which the release was made, namely, that such funds would not be
used for other purposes than those specifically described in request-
ing the release.
